Distillery and Irrigating Purposes.

This valuable pump is being materiachered and sold by the Pacific Pump Manufacturing Company, San Francisco, California, and they place it before the public confident that it will supersed all and any Tump public confident that it will supersed all and any Tump is a confident that it will supersed all and any Tump is a confident to purposes for which it is designed. It is a DOUBLE-ACTING, NON-PREEZING FORCE PUMP, adapted to Deep Wells, and almost every use to which a Pump can be applied. No pains have been spared to test its various qualities, having been subjected to the closest and most severe trisis before Givil and Mining Rangineers, Insurance Companies and the U. S. Line-Saving Commission of 1867; in the report of which it is the only Band Tump meeticed not withstanding many others were submitted for examination. From all and overyone it receives the highest economics of praise.

It has been the aim of the Company to construct to scientific principles; and it is claimed that no other Pump of the same oppacity will do its work with greater ease and freedom than the American Submerged Pump.

A SAMPLE PUMP is now set up on our wharf and the public are invited to inspect its working. R. BRODRIOK & CO. jel5 Sole Agents for Pritish Columbia. Business Cards.

Tuesday Morning, June 29, 1869. THE great problem of Reciprocity between the United States and Canada, is soon likely to be solved. The pressure brought to bear on the Government at Washington is too persistent, and involves too many important interests to be long withstood. The builders and carpenters in the present time of financial depression are unable to pay the enormous duties charged on lumber; shipbuilding is paralysed from the same cause. Labor is scantily employed and very poorly remunerated in proportion to the price for necessaries. Complaints from these classes must always be heard in the United States, and will doubtless have their due meed of attention. There are also other voices hardly less potent; there are thousands of men who make a profitable calling of fishing in the waters that properly belong to Canada, and there is every likelihood of their being excluded from those waters should the treaty of Reciprocity fail. Then, again, there is a body gradually rising into importance in the Republic, known as the Free Trade League; they have been agitating various questions of late and amongst the rest, Reciprocity with the League (as in England) is composed of mercantile men, than whom no class is more powerful at the White House. Still another element adds its weight to the mass that is now forcing itself on the attention of statesmen at Was .ington, and that is composed of the carrying trade in the States; they demand the free navigation of the St. Lawrence to enable them to compete with the Canadian carriers, who are continually diverting a portion of American traffic, in consequence of the low rates of freight ruling on the Canadian routes. There can be no more The American people would like to keep everything to themselves if possible, but they don't care about paying too high a price for the advantage. It appears from returns furnished to the Canadian Honse of Commons that in 1865, when the Reciprocity Treaty was in force, that Canadian goods valued at \$36,000,000 were imported into the United States, the dutiable articles among them yielding a Customs revenue of \$8,387. During the fiscal year ending June 30, 1868, the last complete year for which there are returns since the repeal of the Treaty, \$28,000,000 were imported, of which nearly \$4,500, 000 were free, and the others yielded \$3,280,000 revenue. What can speak more eloquently for a renewal of the treaty than the fact that a duty almost prohibitory had not reduced the importation of dutiable Canadian products by a fourth, and therefore that they are absolute necessaries in the Republie. Abrogation of the treaty was suicidal, since the sacrifice was almost wholly on the part of Americans. It is true that the Secretary of the Treasury may try to blink that fact, since a sum of over three millions and a quara ter of guaranteed revenne is a considerable item in his receipts; but against that must be placed the loss to the fishermen of the Eastern States if precluded from fishing in Canadian waters. This would more than counterbalance that sum, besides creating the risk of a national imbroglio in the event of American vessels being seized and confiscated for an infraction of Maritime Laws Then the Shipbuilding trade in the United States is suffering in consequence of the excessive imposts on the material required in that business. Some concessions have been made, but without the right of importing Canadian lumber free of duty, American builders are unable to compete with the builders of New Brunswick and Quebec. However much determined the Protectionists of the United States may be to oppose any change, their efforts will of necessity be futile. The interest and welfare of the many must always prevail against those of the few, and the demands of trade are inexora-

#### "Butler's little Game."

Under this title the New York Even-ing Post pokes fan at General Butler in

"General Butler having had the good luck to come safely out of the late war, and even with improved health and fortune, is not adverse, it seems, to a war with England. It may comfort the Engr lish to be assured that he is the only

American within our knowledge who actually desires to begin a new war with any-

There is a strong reason to believe that the Americans have had enough of fighting for some time to come. It was generally asserted before the war that the most belligerent part of the American people lived south of Mason and Dixon's line; but they have a sensible saying down there now, that any one who wants a new war belongs to those who avoided the fighting in the last one; and they call those bloodthirsty persons bombproofs' We do not mean to insinuate that General Butler is a 'bombproof'—he commanded forces in the field; but we suspect that the army he could raise, either north or south of Mason and Dixon's line, for a new war, to avenge our wrongs would consist chiefly of bombproofs and

"Even General Butler is not so much sanguinary as mercantile. His idea is a very comprehensive one. He would make war upon England with the purpose, first, of thereby stopping importations into this country; and second, of ruining the industry of England.

It is not everybody who can contrive a plan which shall so neatly kill two birds with one stone.

A war with England would, Gen. Butler thinks, stop importations, and do more for the encouragement of home manufactures than all the legislation that could be framed in a quarter of a

"But we will tell Gen. Butler how he can attain all that be is aiming at without so much bloodshed; for, after all, be-Canada. It must be remembered that | nificial as a war might be, and glorious as its conclusions must be with Gen. Butfor and the American eagle to conduct the campaigns, there would inevitably remain a considerable number of widows and orphans, who are not usually happy beings.

"Let Mr. Butler form a company to be called the great American Chinese Wall Company, with the object of filling up our harbours and building a wall of solid and cut masonary, one hundred feet high and two hundred feet wide, around the whole country. Let him apply to Con gress for alternate sections of land and a subsidy of half a million dollars per mile and as Congress is sure to grant it, let

him and company go to work.

By such an enterprise he would provide employment for a number of men striking example of the impotency of human power over the course of trade than is here cited. It was predicted for the Eric Canal that it would cat the Canadians off altogether, and every possible influence was brought to bear on shippers, but all to no purpose. The American people would like to gate keepers and bell ringers—to reward to be the mould provide for the future, a large number of places—as watchinen, gate keepers and bell ringers—to reward to be the mould provide for the future, a large number of places—as watchinen, gate keepers and bell ringers—to reward to the future of the future o goo! protectionists with.

"And England would starve just the same; for General Butler, being a statesman, knows that no sooner was her commerce with this country interrupted than, as he says: deprived of a market for her manufactures, her artisans and shop keepers thrown out of employment and business, would institute bread riots, and rise in insurrection all over the kingdom' Poor England! Was it because he saw through Butler that Mr Goldwin Smith abundoned his native country, which he knew would presently be ruined?"

DESTRUCTION OF AN AFRICAN TOWN BY FIRE.—On the 8th of April a fire broke out in Town Creek, Bonny, in a fish-outer; boose, and extended to other premises, and in a few minutes from 50 to 60 hooses were in flames. The supports were cut away from the houses in the vain hope that the fall of the roofs would smother the fire but in vaio. In the houses of the chiefs was stored gunpow-der, which exploded. The conflagration lasted throughout the 8th and during the succeeding night, and was only extinguished by a heavy fall of rain on the morning of the 9th. With the exception of the dwellings of two chiefs, the town was completely destroyed Filteen or 20 persons are supposed to have lest their lives. A person in the employ of a chief perished in the flames which destroyed his master's house, and when the fire had burnt itself out, a number of other slaves drew the roasted body from the embers and com-menced to eat a portion of it. The chief was informed of the circumstance, and the men informed of the circumstance, and the men were interrogated, when they excused their combalism by saying that they thought it was part of the body of a goat. The property of the merchants, which stands upon the beach, was uninjured, nor was any damage done to the shipping in the river, the wind fortunately blowing the flames in an opposite direction. direction.

A letter from the Chincha Islands dated March 18th, published in the Newhaven Cou-rier, contains the following information con-

cerning the shipments of guano :—
'It is a very trying time here now, as there are over 150 ships here, and the guano is so nearly gone that they cannot work it as fast as formerly, and there are already 50 or 60 ships on demurrage. The lay days are three months, but ships have heretofore bought time and loaded in one third or one bought time and loaded in one third or one half the time. RNow they ard paying to be loaded in all their time. We have been here some weeks, and have taken in but a few loads. It a few months the Chinchas will be deserted, and the Guanape (pronounced Wonappe) Islands up the coast five degrees south of the equator, will have all the ships. They are just beginning to work. The yellow fever is prevalent at the north island, where our marketing is done, and one of our own and some English shipmasters of our own and some English shipmasters have died."

#### A PERFUMED TOOTH-WASH!

Mix a teaspoonful of Murray & Lanman's FLORIDA WATER in a tumbler of pure, soft water, and you will have a tooth-wash far superior to all the lotions and dentifrices over offered for sale. It will not injure the enamel; will heal all tenderness or soreness of the gums or mouth, and will depart the most delightful fragrance to the breath.

As there are counterfeits, buyers should always ask for the Florida Water prepared by the sole proprietors, Lanman & Komp, New York.

ROWLANDS' three great preparations for the hair, the complexion, and the teeth, are known in all quarters of the globe. Their famous "Macassar Oil" has been counterfeitted in France, Germany, and elsewhere, but none of the spurious preparations have possessed the extaordinary properties of the genuine article. Rowland's "Kalydor" for the complexion has activated in the special properties of the genuine article. Rowland's "Kalydor" for the complexion has retained its prominent place among fashionable cosmetics notwithstanding the numerous new articles introduced for the complexion. The "Odonto" for the teeth is highly prized by thousands who have used no other dentifrice for years. Rowlands great success during the past two generations, and their present prominent position as manufacturers, may justly be attributed to the excellent character of their articles, and to the fact that unlike many other proprietors of established fame, they do not allow their cosmetics to deteriorate in quality. quality.

Constitutions contaminated with scrofuls are more than any others subject to desease, and of course have far less power to withstand or recover from it. Hence it is in thousands of cases, the real cause of sickness death, where no ulcarous manifestations of the disorder appear. The influence of scrofula is, found not only to aggravate the course of diseases but it originates many of them. Dr. found not only to aggravate the course or usea-ses, but it originates many of them. Dr. Walker's Vegetable Vinegar Bitters purifies the blood, parging out out the rot and corrup-tion that scertula breeds in it, giving it re-newed vitality, and the force of yru th again.

THE EARTHQUAKE of Sunday evening was severely felt on the Sound. At Olympia and Seattle the people rushed from the hotels and dwellings into the streets; but it appears that during the previous week there were two sharp shocks which were not felt at Viotoria. The Pacific Tribune says :- "On Sunday afternoon last a slight shock, perceptible to comparatively few of our people, was felt in Swantown and Olympia. It was reserved for Tuesday morning, however, to afford a demonstration which not only convinced the most skeptical, but one which terrified all who are in the least inclined to timidity. At a few minutes before five o'clock, on the last named morning, a shock was felt which awaked from the soundest slumbers nearly all who had not yet arisen, and seriously alarmed those who were astir at that hour, many of whom felt an earthquake then for the first time. A somewhat remarkable event, which probably has some connection with the earthquake, is said to have occurred in the Cowlitz river on Monday-the day previous. Mr. R. H. Howe, the telegraph operator at Pumphrey's, sent word over the wires that that river, which is noted for the peculiar clearness and placidity of and other small game, but no bears or was disturbed by some cause unknown to the people; the water becoming suddenly very muddy throughout the entire river, and remaining so for some time. This was observed by persons living in the vicinity, and excited much wonder and comment

SUDDEN DEATH.—On Wednesday morn. ing, Mr. Julius Mitchell, who kept a store on Mill street, was found dead in his bed. Deceased had been complaining for some time of having pains in his head, but nothing serious was anticipated. On the emorning in question he complained to a friend that he was very weak, and wished something to eat. While the meal was being prepared, a party stepped in to see him, but found life extinct We are informed that he used to carry on business in Yale, British Columbia, and has relatives in Victoria .- Seattte Intelligencer.

The True Medical Doctrine.

Nature when struggling with disease, indicates unmistakeably the kind of assistance she requires. In cases of nervous weakness and requires. In cases of nervous weakness and general debility, the feeble pulse, the lack-lustre eye, the attenuated frame the flucid muscles, the melancholy visage, inform us as medicated stimulant is needed. It does not require the aid of a medical education to understand this dumh appeal for new viscor frame from duric the and of a medical education to understand this dumb appeal for new vigor, from an exhausted system. Every reader of these lines can comprehend it just as well as the gratuate of a physicians' college. Let not this demand of enfeebled nature be neglected. Respond to it promptly by commencing a course of HUSTETTER'S STOMACH BITcourse of HOSTETTER'S STONACH BITTHES, a preparation uniting, in their highest
excellence the properties of a simulant, an
invigorant and an alterative. Before three
days have elapsed, from the taking of the first
aose, a benificial chaage will be manifest in
oodily and mental condition of the patient.
The pulse will be stronger and more regular
the eye will begin to lose its dull expression,
the muscular and nervous systems to recover their tension, and the spirits to improve.
Persevere and a complete revivification of the
depressed animal and mental powers is certain. In cases of dyspepsia and biliousness,
the same salutary results will be obtained.
The appetite will revive, the sallowness of the
skin dissappear, and all the distressing symptoms which accompany disorders of the
stomach and liver will rapidly subside. The
cold of winter often intensifies these complaints by checking the perspiratory action, plaints by checking the perspiratory action, by which so much morbid matter is evaporated through the pores in milder weather, and therefore the BITTERS are especially useful to the dyspeptic and at this sesson.

Hollowat's Pills.—These celebrates Pills are essentially useful in purifying the blood cleansing the stomach, gently stimulating the kidneys, and acting as mild aperients. A few doses of this purifying medicine set the foulest stomach right, remove all billious symptoms, steady the circulation, give strength to the muscles and composure to the brain and nerves. The Pills are so innoxious that they may be taken by persons in the most delicate state of health, and with marvellous effect. When the system has been oner vated by over-indulgence, or exhausted by mercural preparations, these Pills are excellent restoratives, they expel the poison and enrich the blood.

Chemists to H.I.H. Prince Napoleon

#### PARIS.

THESE different medicines represent the mest recent medical disoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the satirogent laws exist in France with regard to the satirogent and examinate of the complete of the complete of the complete of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of Messers. Grimmult et Co.'s Medicines.

#### DOCTOR LERAS'

#### LIQUID PHOSPHATE OF IRON.

The newstand most esteemed medicine in cases of Chlorosia. Pales in the Stomach. Difficult Digestlos, Dismenorrhen, Anlmen, General Dobli lity and Poorness of Blood.

It is particularly recommended to regulate the functions of nature, and to all ladies of delicate constitution, as well as to persons suffering under every kind of debility whats-were. It is the preservative of health par excellence, in all warm and relaxing climates.

#### NO MORE COD LIVER OIL!

#### Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for God Liver vil and has been found most beneficial in Diseases of the Chest, Scrofuln. Lymphatic Diseaders, Green Sickness, Bluscular Atour, and Loss of Appetite. It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in Diseases of the Skin. Further, it will be found to be of great benefit to young children subject to Hamors and Obstructions of the Glands.

#### CONSUMPTION CURED !

## Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Consumption and other Diseases of the Langs. It promptly removes the most serious symptems. The cought is relieved, night perspirations cease and the patient is rapidly restored to learn. The Language of the Constant o

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. ANER: Your Pills are the paragon of all that is great in medicine. They have cared my little daughter of ulcerous sores upon her hands and ethat had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cared, she also tried your Pills, and they have cured her.

From Dr. E. W. Cartwright, New Orleans.
Your Pills are the prince of purges. Their excellent qualities surpass any catharite we possess.
They are mild, but very certain and effectual in their
action on the bowels, which makes them invaluable
to us in the daily treatment of disease. Hendache, Sick Hendache, Foul Stomach

Dr. J. C. Ayer. Sir. I have been repeatedly cured of the worst heedrache any body can have by a dose or two of your Pilis. It seems to arise from a foul stomach, which they cleams at once.

Yours with great respect, El. W. FREBLE.

Billious Disorders—Lives Computational Computations.

From Dr. Theodore Bell, of New York City,
Not only are your Pills admirably adapted to their
purpose as an aperient, but I find their beneficial
effects upon the Liver very marked indeed. They
have in my practice proved more effectual for the
cure of bilous complaints than any one remedy I
can mention. I sincerely rejoice that we have at
length a purgative which is worthy the confidence of
the profession and the people.

the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1866.

Sire: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best catharite we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for deraugements of that organ, Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physician of the Marine Hospital.

Dysentersy, Diagraphen, Relux, Wormas. Dysentery, Diarrhea, Relax, Worms.

Pysentery, Blarrhen, Reinx, Worms.
From Dr. J. G. Green, of Chicago.
Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diameters. Their sugar-configm makes them very acceptable and convenient for the use of women and children.

Dyspepsin, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

Dr. Ayer: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can condidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathertic Pills in my practice, and find them an excellent purgative to cleans the system and purify the foundations of the blood.

DEAR BRO. AVER: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on that effects, and believing, as I do, that your Pills anford us the best we have, I of course value them highly.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgin, Dropsy, Purnlysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Fills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your Fills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel verms. They are so much the best physic we have that I recommend no other to my patients.

PULASKI HOUSE, SAVADINA, Ga., Jan. 6, 1856.

HONOMED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on exeruciating neuralyic pains, which ended in chronic rheumatism. Nowthstanding I had the best of physicians, the disease grew worse and worse, until by the advise of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.
